

# CINCO MAS

## 10g Self loading stretcher with 5 heights

Spencer Cinco Mas is a self-loading stretcher with 5 adjustable heights for patient transport. It is a compact and light stretcher, usable in rescue operations on streets and rescue vehicles. The legs fold away independently, activating the dedicated commands during the unloading procedure, they open automatically. 10G certified if used with the fastener *Sensor Lock*.

### Specific features

- Polyethylene board easy to clean
- Adjustable backrest
- Antishock position Trendelenburg
- Extreme maneuverability thanks to the Twist system which, when operated, makes pivoting all 4 wheels
- Brakes on rear wheels
- Foldable side bars *Safe bar*
- 5 Adjustable heights system
- Integrated SHARP SENSOR LOCK system on the leg unlocking handle, which allows to unlock the stretcher from the fastener without acting on the fastener
- Adjustable heights unlocking system logically placed to improve usability
- The patented front leg opening and closing system, reduces the effort required by the operator, and allows to make such movement much more smooth

### Needed optional accessories

- CR90013B Loading trolley extender for Cinco Mas

### Optional accessories

- ST42706 10G fastener sensor lock (Mandatory for 10g versions)
- EN90003C END-T Table for stretchers 10g cert.
- ST00491A STX 90 Telescopic headrest for stretchers
